

People. Passion. Performance.

**Item 1: 4116023045**

**Chicago Pneumatic Reciprocating: CPRD 6150 NS39 - 5.5hp on 150ltr tank**

415V Three phase, **Two Stage** Heavy Duty Piston Compressor. **5.5 hp**, 11bar

- Cast iron barrels
- Aluminium Heads for faster cooling
- Auto On/Off pressure switch
- External Oil level gauge
- Industrial Paint Finish
- As1210 Certified air receiver
- 1 Year Warranty
- **Made in ITALY**

**Specification:**

- |                             |                               |
|-----------------------------|-------------------------------|
| • Piston Displacement       | 23 cfm / 651 L/min            |
| • Free Air Delivered        | 18.4 cfm / 521 L/min          |
| • Max operating pressure    | 11 Bar / 160 psig             |
| • Min operating pressure    | 6 bar / 87 psig               |
| • <b>Voltage</b>            | <b>415/3/50 hz</b>            |
| • <b>Rated Motor Power</b>  | <b>4kw</b>                    |
| • Pump Speed                | 1000 rpm                      |
| • Breaker required          | 20 A type D motor starting *1 |
| • Type of Cooling           | Air cooled                    |
| • Noise level               | 95+ dBa at 1 metre            |
| • Air discharge Connection  | 1/2" BSP                      |
| • Dimensions (L x W x H) mm | 1560 x 580 x 1130             |
| • Weight                    | 140 kg                        |
| • Air Receiver              | 150 L                         |

**\*1 Only a Guideline. Qualified Electrician wiring the compressor has to do site specific calculation**
