

People. Passion. Performance.

**Item 1: 4116026155**

**Chicago Pneumatic SILENCED Reciprocating: CPRS 10500 NS59 FT -10hp on 500ltr tank**

415V Three phase, **Two Stage** Heavy Duty **SILENCED** Piston Compressor. **10 hp**

- Cast iron barrels
- Aluminium Heads for faster cooling
- Auto On/Off pressure switch
- External Oil level gauge
- Industrial Paint Finish
- AS1210 Certified air receiver
- 1 Year Warranty
- **Large 500 litre receiver suitable for a busy workshop**
- **Made in ITALY**

**Specification:**

- |                             |                               |
|-----------------------------|-------------------------------|
| • Piston Displacement       | 36.4 cfm / 1020 L/min         |
| • Max operating pressure    | 11 Bar / 160 psig             |
| • Min operating pressure    | 6 bar / 87 psig               |
| • <b>Voltage</b>            | <b>415/3/50 hz</b>            |
| • <b>Rated Motor Power</b>  | <b>7.5kw</b>                  |
| • Pump Speed                | 810 rpm                       |
| • Breaker required          | 25 A type D motor starting *1 |
| • Type of Cooling           | Air cooled                    |
| • Noise level               | 66+ dBa at 1 metre            |
| • Air discharge Connection  | 1/2" BSP                      |
| • Dimensions (L x W x H) mm | 2020*1000*1600                |
| • Weight                    | 448 kg                        |
| • Air Receiver              | 500 L                         |

**\*1 Only a Guideline. Qualified Electrician wiring the compressor has to do site specific calculation**
