

NT1850DA(H4Z) 18V Brushless 18G Brad Nailer

Barcode 4966376335473

Lightweight & compact body

Steady nailing performance even in cold environments

Easy on the user without exhaust gas odour and explosive sound

Brushless motor for driving 1,300 nails per charge.

Selectable firing modes

Specifications

Driving system	Unique Air Drive
Motor type	Brushless
Nail type	18 gauge brad nails - straight
Nail length	16-50mm
Nail Ø	1.0-1.25mm Ø
Nail magazine capacity	100 nails
Magazine angle	0°
Nail feed system	Spring
Firing mode	Single sequential / Contact
Nailing speed	2 nails / second
Tool-less nailing depth control	Yes
LED light	Yes
Battery	Compatible with HiKOKI Multi Volt & 18V slide batteries
Weight (including battery)	2.4kg
Dimensions L x H x W (including the battery)	286 x 267 x 92mm
Included accessories	Hook, safety glasses & nose cap

Features

Lightweight (2.4kg) and compact body, 27% lighter than the NT1850DBSL (3.3kg).

Steady nailing performance even in cold environments were the gas combustion nailers are prone to be affected by operating in this environment.

Due to no exhaust gas odor and explosive nailing sound, you can perform nailing work smoothly without disturbing people in the surroundings.

Brushless motor for driving 1,300 nails per charge.

Selectable firing modes - You can switch between power on/off states and firing modes (Single sequential / Contact), and also check the remaining battery level on the products' operation panel.

Compatible with the HiKOKI Multi Volt & 18V Slide Batteries.
