WHAT'S NEW :

INTEGRATED DEUTSCH PLUG

The integrated Deutsch allows EB2 to be mounted in tighter spaces.

CERTIFIED IP67

EB2 is rugged. The unit is waterproof, shock proof and dust proof.

TAP + TOW

Use the tap technology (NFC) to download the app and connect the unit.

INTELLIGENT SAFEGUARDS

EB2 is built to last. With the intelligence to regulate itself with thermal protection and short circuit protection.

SMART BRAKE SENSOR

EB2 will measure the power applied to the brakes and feed this information back to the user's app. It can be used for intelligent diagnosis.

OVER THE AIR UPDATES

EB2 will have improved firmware update capabilities allowing feature updates, accessible through the Elecbrakes App via the user's phone.

IMPROVED MULTIPLE DEVICE MANAGEMENT

EB2 allows the user to have better management of their device.
