SLAYER
CORNER KIT

EVERYTHING YOU NEED
TO TAKE ON INTERNAL CORNERS

Apply joint compound, bed-in tape then perfectly glaze and feather internal corners with the Slayer Corner Kit from Tapepro. The Slayer Corner Kit includes every tool required to finish internal corners fast and with less strain on the body. Packaged together in an aluminium case for safe storage and easy transport.

What's in the kit:

Tapepro Compound Applicator Tube CA-T

Draws compound from the bucket and can be fitted with a wide range of mud head attachments. Use with the AH-38 to apply joint compound to internal corners

Angle Head Attachment AH-38

The AH-38 mud head fits to the Compound Applicator Tube to dispense the correct amount of compound to 90° internal corners

Corner Roller

Beds tape in and spreads compound into the corner

Corner Finisher Handle Fits to Straight Glazers for internal glazing

75mm Straight Glazer SG-75

55mm Straight Glazer SG-55
