TOP FEATURES

1. The EF2200iS Inverter Generator boasts a rugged design with a powerful high output **Yamaha MZ80 engine**.
2. The EF2200iS is fitted with **Yamaha Quiet Technology**. Its quiet operation allows you to have a conversation near one and may not even realize it's running. (57-65dBA)
3. The EF2200iS offers high power, sophisticated quiet technology, rich features and a rugged design. It weighs a mere 55 lbs., and with the tri-handle design is easy to transport.
4. If you need more power, the EF2200iS has a convenient Twin Tech parallel function allowing you to connect two EF2200iS units together to provide 30 AMPs of rated power.
5. The EF2200iS was built with the RV Camper in mind, incorporating a standard **RV outlet** as a standard plug meaning no more searching for the right adapter to power your RV.
6. A new design makes moving around the campsite or worksite a breeze with the **tri-handle design** - designed for two people to easily move the unit.
7. Starting and stopping the unit is simple now with a **Yamaha Smart Dial**.
8. Long Run Time - The EF2200iS features **Smart Throttle**, a load sensing rpm control that allows greater fuel efficiency and noise reduction by automatically adjusting engine speeds to match the load. It will run up to 10.5 hours at 1/4 rated load on a tank of gas.
9. The all new **LED Illuminated Control Panel** makes it easy to check the status of your generator both day and night. The control panel features a multi-function display as well as an illumination light that cascades over the entire control face of the unit for easier low light operation.
10. Integrated into the control panel is a regulated DC socket outlet allowing more devices to easily connect to the generator.
